Flyte Tyme Worldwide Opens Philly Office

Essington, Pa – Global chauffeured transportation provider, Flyte Tyme Worldwide announced the opening of a new branch office in Philadelphia in August. With headquarters in Mahwah, NJ, the company has additional bases of operation in New York City and Central New Jersey, in addition to providing service in more than 300 cities worldwide.

Flyte Tyme Philadelphia is located in Essington, Pa. just outside of the city and one exit from Philadelphia International Airport. According to company President, Tim Rose, the new 9,000 square foot facility provides service to Flyte Tyme's Pennsylvania, New Jersey and Delaware customers. "We were farming out a lot of work in this area, so we decided to open the new office," he explains. "It gives us greater quality control."

Industry veteran, Michael Barreto is serving as Branch Manager of the Philadelphia office. Barreto, who joined the Flyte Tyme team in December of 2006, was chosen to run the new office because of his considerable local limousine experience.

Flyte Tyme Philadelphia opened with 20 vehicles to service local clients, but already the company is making additional vehicle purchases. Barreto expects to have 30 cars by October. A car wash and maintenance bay for onsite repairs are being installed this fall.

"Thanks to the strength of the Flyte Tyme brand, getting this new office rolling has been seamless," says Barreto. "Tim [Rose] is doing everything possible to make sure that we provide the same exceptional level of service that the clients at our other offices have come to rely on."

Also this fall: Flyte Tyme will be moving its Central New Jersey office from Plainsboro to a larger facility in nearby West Windsor, NJ.
